

CODE OF ETHICS

Cavalier King Charles Spaniel Club, USA, Inc.

I believe that the welfare of the Cavalier King Charles Spaniel breed is of paramount importance. It supersedes any other commitment to Cavaliers, whether that be personal, competitive, or financial. Therefore I agree to act in accordance with the following Code of Ethics at all times, and I understand that actions contrary to the Code may be grounds for disciplinary measures to be taken by the Board of Directors of the Cavalier King Charles Spaniel Club, USA, Inc. The Cavalier King Charles Spaniel Club, USA, Inc. (hereafter referred to as CKCSC) is a Club composed of members devoted to the continued betterment of the breed, who put this interest well ahead of any commercial consideration. The following Code of Ethics is predicated upon this fundamental philosophy.

I. Records and Registration

I understand that all records compiled by the CKCSC depend entirely upon the accuracy of the information I provide. Therefore, I will register every eligible Cavalier owned, bred or imported by me, in accordance with the CKCSC Rules for Registration and Transfer of Dogs. I will maintain complete and accurate records of each litter I breed and register each puppy individually, as follows:

A. For the Sire and Dam:

1. CKCSC registered name, number (or Accepted Foreign Registry name and number), color, and date of birth.
2. Names and addresses of registered owners.
3. Dates of actual breeding.

B. For the resulting litter:

1. Date of whelping.
2. Number, color and sex of puppies delivered.
3. Name, sex and registration number of each puppy surviving.
4. Name and address of owner of each puppy transferred.

II. Breeding

I realize that the purpose of breeding Cavalier King Charles Spaniels is to attempt to bring their natural qualities to perfection in accordance with the Breed Standard. There exists a constant danger that ignorant or disreputable breeders may, by improper practices, produce physically, mentally or temperamentally unsound specimens to the detriment of the breed. I will consult with the breeder of the dog I own and/or with some other experienced breeder before undertaking any breeding.

A. If I decide to breed a litter, I will:

1. To the best of my ability be selective with respect to the conformation, physical well being, and temperament of the pair to be mated.
2. Breed only after a careful study and understanding of the Breed Standard, as it applies to the pedigrees of the two dogs involved, and to the dogs themselves.
3. Breed only Cavaliers registered with or eligible for registration with the CKCSC.
4. Be prepared to provide the proper care for both the bitch and her litter, and to retain the puppies for as long as is necessary to assure their placement in suitable homes.
5. Never breed from or to any Cavalier known to me to have a inheritable disqualifying, disabling, or potentially disabling health defect. Testing for inherited diseases and health defects is strongly recommended by CKCSC, USA.
6. Register with CKCSC, in accordance with the Club's Procedures for Registration and Transfer of Dogs, each of my Cavalier litters whelped in the USA.
7. Never breed, or breed to, a "Restricted from Breeding Dog or Bitch" unless the revocation of restriction from breeding has been recorded by The Registration Office prior to mating.

B. As the owner of a stud dog, I realize that I must exercise exemplary conduct in the use of my dog in order to abide by the standards set forth in this Code of Ethics. Therefore I will:

1. Use my dog only on bitches which I feel are an asset to the breed, whose owners agree to conform to this Code of Ethics.
2. See the bitch's pedigree and registration certificate to check ownership, age, and restrictions and try to ascertain the number of litters, and when she last had a litter.
3. Supply a duly signed Stud Service Certificate at an appropriate time. the time of mating.
4. Be as helpful as possible in assisting the owner of the bitch with the placement of any puppies resulting from

the use of my dog, realizing that I am as responsible as the breeder for these puppies.

5. Offer to assist the owner of the bitch in completing registration procedures for registration of the litter and for transfer of the litter pups.

6. Provide one free return service by the same dog for a bitch which has failed to conceive or to whelp a viable litter as long as the dog is still in my ownership.

C. As the owner of a brood bitch, I realize that I must exercise exemplary conduct in breeding from her in order to abide by the standards set forth in the Code of Ethics. Therefore I will not:

1. Breed a bitch before she is one year old, and then only if she is sufficiently mature and in excellent health; nor breed a bitch that has reached her eighth birthday.

2. Allow a bitch to whelp more than two litters during any three consecutive seasons.

3. Allow a bitch to carry to term and rear more than six litters in her lifetime.

III. Care And Transfer of Puppies And Dogs

J. I will ask the owner(s) of any dog acquired from me to advise me if they are ever unable to keep their Cavalier, so that I can either take the dog back or give every assistance in rehoming it.

K. I understand that if I co-own a dog it is wise to have a contract drawn up, signed by both co-owners, stating the exact terms of co-ownership.
